Our story (planned section)

Element	Content
Eyebrow	Our story
Headline	Welcome to Diti Engineers
Body	Diti Engineers specializes in manufacturing engineering parts for electric motors, submersible pumps, automobiles and industrial machinery. From CI casting to aluminum pressure die, we deliver application-specific components with dimensional accuracy, reliable material grades and competitive pricing for domestic and export buyers.
Story image	NEEDS CONTENT — real facility photo

Why choose us — 4 cards (planned section)

Card	Title	Body
1	Quality Product	Consistent CI and aluminum grades, in-process inspection and repeat-order reliability for motor, pump and auto lines.
2	Competitive Pricing	Direct manufacturer pricing without trading markup — structured for OEM volumes and long-term supply agreements.
3	Quick Delivery	Rajkot-based production with predictable lead times and quote response within 24 hours on new inquiries.
4	13+ Years Experience	Established proprietorship with GST registration since 2017 and a proven track record on IndiaMART.

Leadership (planned section)

Element	Content
Eyeblink	Leadership
Headline	Factory-led by experienced leadership
Proprietor	H Rangani
Role	Proprietor · Production
Bio	Led by H Rangani, Diti Engineers runs as a hands-on manufacturing operation focused on casting quality, on-time dispatch and long-term OEM partnerships across Gujarat and India.

CTA banner (planned section)

Product gallery — 15 items

#	Product name	Description
1	CI Casting	Cast iron components for industrial and automotive applications.
2	Aluminum Pressure Die Casting	High-pressure aluminum die cast parts with dimensional accuracy.
3	Induction Motor Casting	Castings for induction motor frames and related parts.
4	Submersible Pump Parts	Cast components for submersible pump assemblies.
5	Auto Parts Casting	Automotive component castings for OEM and aftermarket use.
6	Aluminum Motor Body Parts	Aluminum cast motor body and housing components.
7	Automobile Casting	Automobile sector castings in various materials and grades.
8	Aluminum Casting	General aluminum casting for industrial components.
9	Electric Motor Parts	Cast and fabricated parts for electric motor production.
10	Motorbody Casting	Motor body and frame castings.
11	Electric Motor Body Casting	Dedicated electric motor body casting solutions.
12	Pump Parts Casting	Castings for pump housings, impellers, and related parts.
13	Grill Design Casting	Decorative and functional grill design castings.
14	Casting (General)	General casting services across materials and applications.
15	Electric Motor Parts Casting	End-to-end casting for electric motor component lines.

NEEDS CONTENT: All 15 product images are placeholders. Real product photos from the factory are required for each card.

6 service cards

#	Service	Description
1	CI Casting	Cast iron components for motor frames, pump housings and industrial applications with consistent grades and finish.
2	Aluminum Die Casting	Lightweight aluminum die cast parts for motor enclosures, auto components and precision assemblies.
3	Pressure Die Casting	High-pressure die casting for complex aluminum geometry with tight tolerances and reduced assembly steps.
4	Motor Parts Casting	Dedicated casting for induction motor bodies, end shields and related electric motor components.
5	Pump Parts Casting	Submersible pump housings, impellers and allied cast components for pump OEM assembly lines.
6	Auto Parts Casting	Automotive sector castings in CI and aluminum for OEM suppliers and component manufacturers.

How we work — 4 steps

Step	Title	Description
1	Share requirement	Send drawing, sample or specification — we confirm material grade and process fit.
2	Quote & sampling	Price guidance within 24 hours. Sample or pilot run when needed before production.
3	Production run	In-house CI, aluminum and pressure die casting with inspection before dispatch.
4	Repeat supply	Scheduled repeat orders with GST-registered invoicing and export documentation support.

Buyers

9 buyer testimonial cards

NEEDS CONTENT: All testimonials below are placeholder quotes. Replace with real verified quotes from actual buyers before launch.

#	Quote	Author	Company
1	“Consistent material quality and predictable lead times — the two things that actually matter when you’re scaling a motor line.”	Procurement Manager	Submersible pump OEM, Gujarat
2	“We replaced two job-shop suppliers with Diti Engineers. Single source for CI and aluminum, fewer late shipments.”	Purchase Head	Electric motor manufacturer
3	“Repeat CI motor body runs ship on schedule. One Rajkot partner covers casting through dispatch.”	Plant Manager	Motor OEM, western India
4	“Pump housings and impeller castings arrive dimensionally stable — our assembly line stays predictable.”	Operations Lead	Pump manufacturer, Gujarat
5	“Automotive casting programs need tight tolerances. Diti delivers aluminum and pressure die from one roof.”	Sourcing Manager	Automotive OEM supplier
6	“GST-registered invoicing and export documentation from day one — finance cleared our vendor onboarding fast.”	Finance Controller	Industrial OEM, India
7	“Found Diti on IndiaMART, stayed for 13+ years of repeat orders. Direct manufacturer, no trading markup.”	Vendor Development	Electrical equipment OEM
8	“In-house CI and aluminum under one quality system — fewer audits, fewer surprises on the floor.”	Quality Head	Pump and motor OEM
9	“Submitted a drawing on Monday, had price	Project Engineer	Auto components buyer

#	Quote	Author	Company
	guidance by Tuesday. That speed wins programs for us.”

Certificates

Hero

Element	Content
Eyebrow	Certificate
Headline	Credentials and compliance
Subheading	GST-registered manufacturing with documented business credentials for OEM vendor onboarding.

Image gallery — 5 items

NEEDS CONTENT: Real facility and certification photos needed for all 5 gallery items.

#	Title	Caption
1	Quality Inspection	In-process dimensional and visual checks before parts leave the Rajkot facility.
2	Factory Floor	Documented manufacturing environment supporting OEM vendor onboarding and audits.
3	Production Operations	Controlled casting and machining workflows with traceable material grades.
4	CI Casting	Gray and ductile iron components for motors, pumps and industrial applications.
5	CNC Machining	Finish machining and inspection for tight-tolerance OEM programs.

3 credential cards

#	Title	Body
1	GST Registered	Registered since July 2017 — GST-compliant invoicing for domestic and export orders.
2	Quality Commitment	Process-focused manufacturing with material grade consistency and in-process inspection.
3	Business Compliance	Established proprietorship with verified IndiaMART presence and statutory registration.

Company factsheet

Field	Value
Nature of business	Manufacturer
Proprietor	H Rangani
GST registration	July 2017

FAQ

Question	Answer
Where can I request a quotation?	Use our quote form on this page or the contact section on the homepage. Share your drawing, material and volume — we respond within 24 hours.
What materials do you cast?	We manufacture CI casting, aluminum casting and aluminum pressure die cast parts for motors, pumps, automotive and industrial applications.
What is the typical lead time?	Lead time depends on part complexity and volume. We provide guidance with every quote and support repeat production schedules for OEM programs.
Are you GST registered?	Yes. Diti Engineers is GST registered since July 2017 with statutory credentials available for vendor onboarding.
